

Article summary

Note:

- Article summary charts can be configured for master catalogs, inherited catalogs, and line architecture catalogs.

You can generate charts for the viewed articles based on attributes, request data, and price groups, if the catalog is configured to support article summary. View the articles, then click **Summary**, the following charts are displayed based on the catalog configurations:

You can click any of the charts to view the articles or click **View all** to view all the articles. Below is an example:

SUMMARY - □ ×

[← Back](#) **Age Group: adult** Row Divider Column Divider Filter By

 Cap AED 80 88033 <input type="text"/> <input type="text"/>	 Cap AED 80 16293 <input type="text"/> <input type="text"/>	 Cap AED 80 85294 <input type="text"/> <input type="text"/>	 Cap AED 80 96048 <input type="text"/> <input type="text"/>	 Cap AED 80 49116 <input type="text"/> <input type="text"/>
 Cap AED 80 38939 <input type="text"/> <input type="text"/>	 Cap AED 80 25619 <input type="text"/> <input type="text"/>	 Cap AED 80 66560 <input type="text"/> <input type="text"/>	 Cap AED 80 43540 <input type="text"/> <input type="text"/>	 Cap AED 80 66220 <input type="text"/> <input type="text"/>

You can use the filter by and row and column dividers as mentioned before, or click **Back** to view the summary charts again.
