

Assign color

You can assign a color to a colorway by right clicking the thumbnail, then following these steps:

1. Select **Assign color** from the menu, the following window appears:

2. Select the primary color,
3. Select the logo color and secondary color, if you want, these attributes can be configured at the catalog level,
4. Click **Assign**, the last 3 digits of the colorway number are changed as per the selected color.

Note:

- Assigning colors is only available for master catalog articles.
