

Modify objects

You can modify the properties of an object for multiple slides whether in one folder or in different folders, such as the object alignment, position, color, etc. To do so, follow these steps:

1. Click **Modify**, the following window appears:

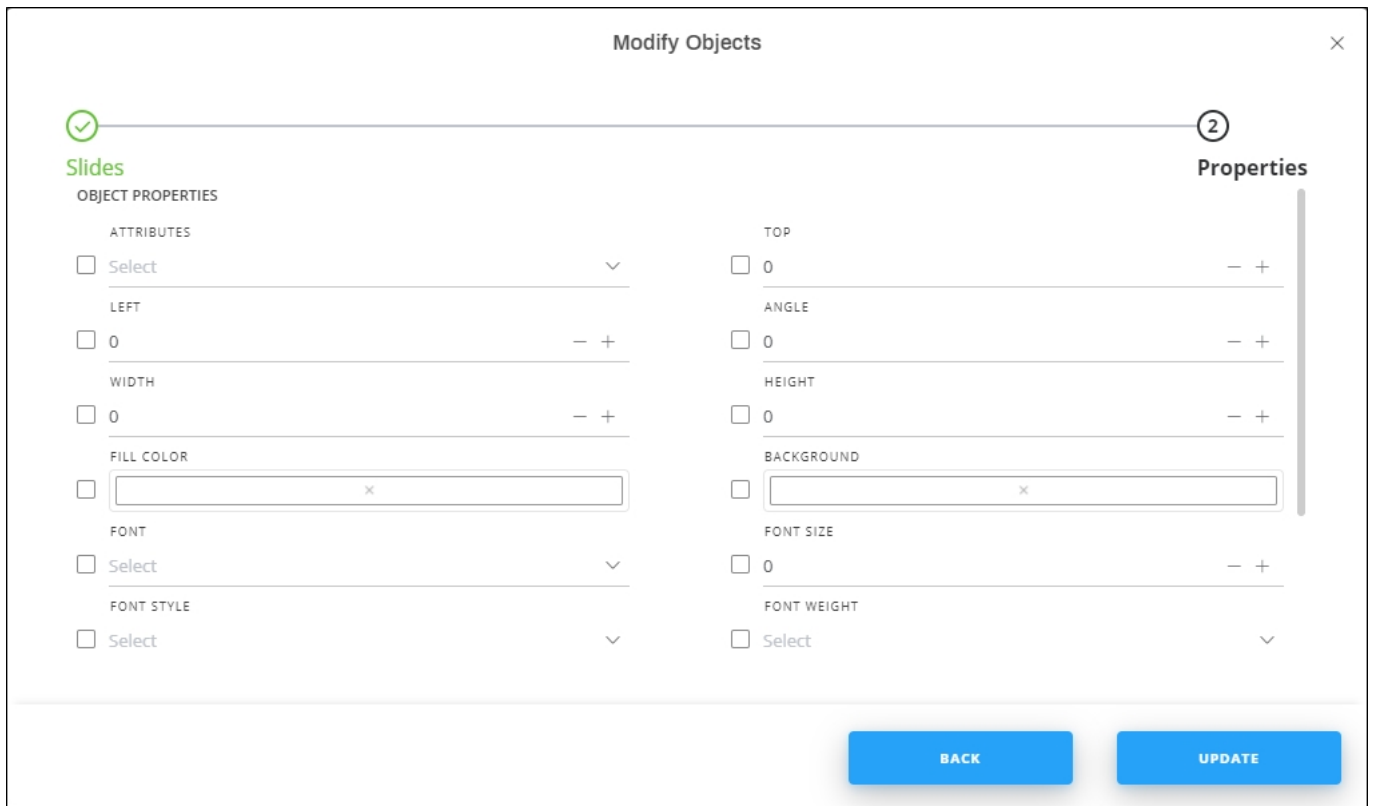

The screenshot shows a dialog box titled "Modify Objects" with a close button in the top right corner. A progress indicator at the top shows two steps: "1 Slides" and "2 Properties".

Under the "Slides" section, there is a dropdown menu labeled "Select" with a downward arrow. Below it, there are two expandable sections: "Default" and "Winter Collection", each with a square icon and a right-pointing arrow.

At the bottom of the dialog box, there are two buttons: "BACK" and "NEXT".

2. Select the object which you want to modify,
3. Select the slide(s) or folder(s) for which you want the selected object properties to be modified,
4. Click **Next**, the following window appears:

The above window differs according to the selected object.

5. Make the changes you want then click **Update**.
