# Edit retail window

To edit retail window for one or multiple colorways, select the colorways then click **Edit retail window**, the following window appears:

Select the retail intro month then retail exit month and click **Update**.

To remove the assigned retail window, select Reset from the retail intro month dropdown, the button changes to **Remove**, as shown in the below example:

Click **Remove** to delete the assigned retail window.

Notes:

- This option is only available if "Apply retail window" flag is activated for the catalog.
- For child catalogs, this option is only available if the period, retail intro month, and retail exit months are filtered based on the parent catalog colorway.
