

Edit prices

You can edit prices for one or more colorways. To do so, view the colorway and select “Edit prices” from the Actions menu, the following window appears:

The screenshot shows the 'Edit Prices' window for style NN6002835 / Shorts. The window contains the following fields and values:

Field	Value
WHOLESALE PRICE (USD)	10
MSRP (USD)	10
OUTLET PRICE (USD)	0

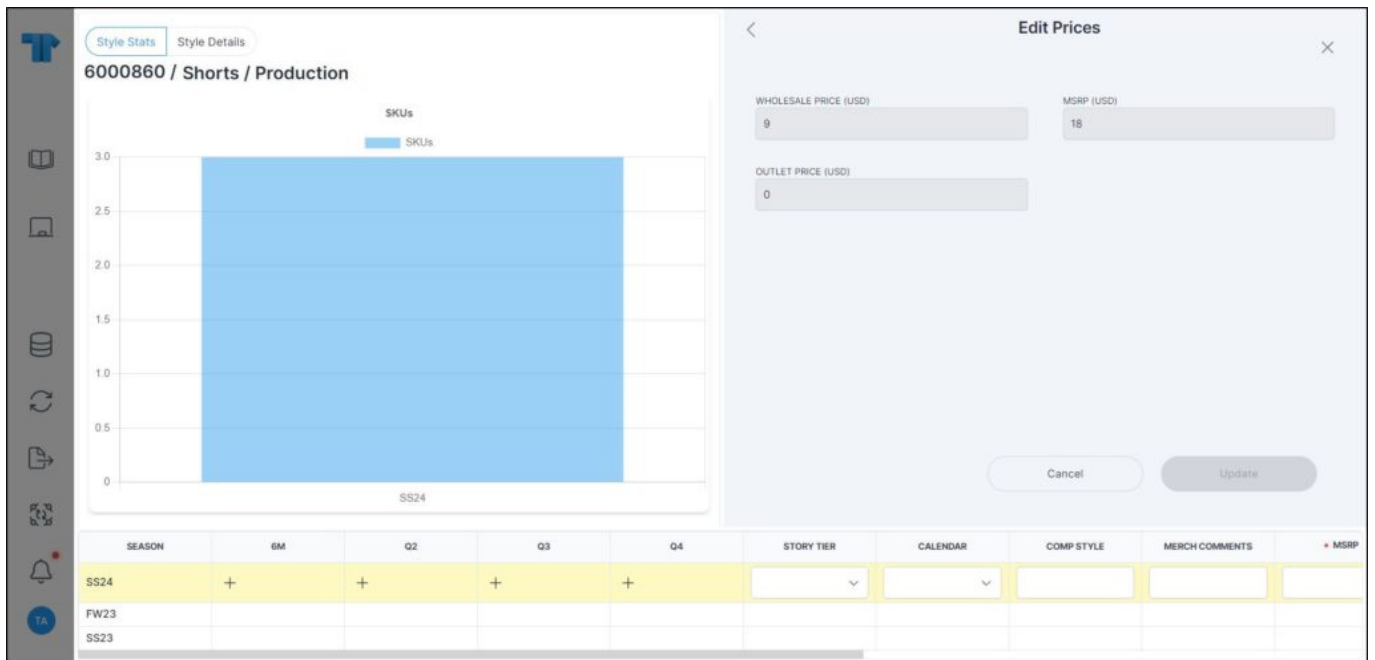

Below the 'Edit Prices' window, a table shows the season data for the selected style:

SEASON	6M	Q2	Q3	Q4	STORY TIER	CALENDAR	COMP STYLE	MERCH COMMENTS	
SS24	P01 - Accessories +	P02 - Accessories +	+	+					10
FW23									
SS23									

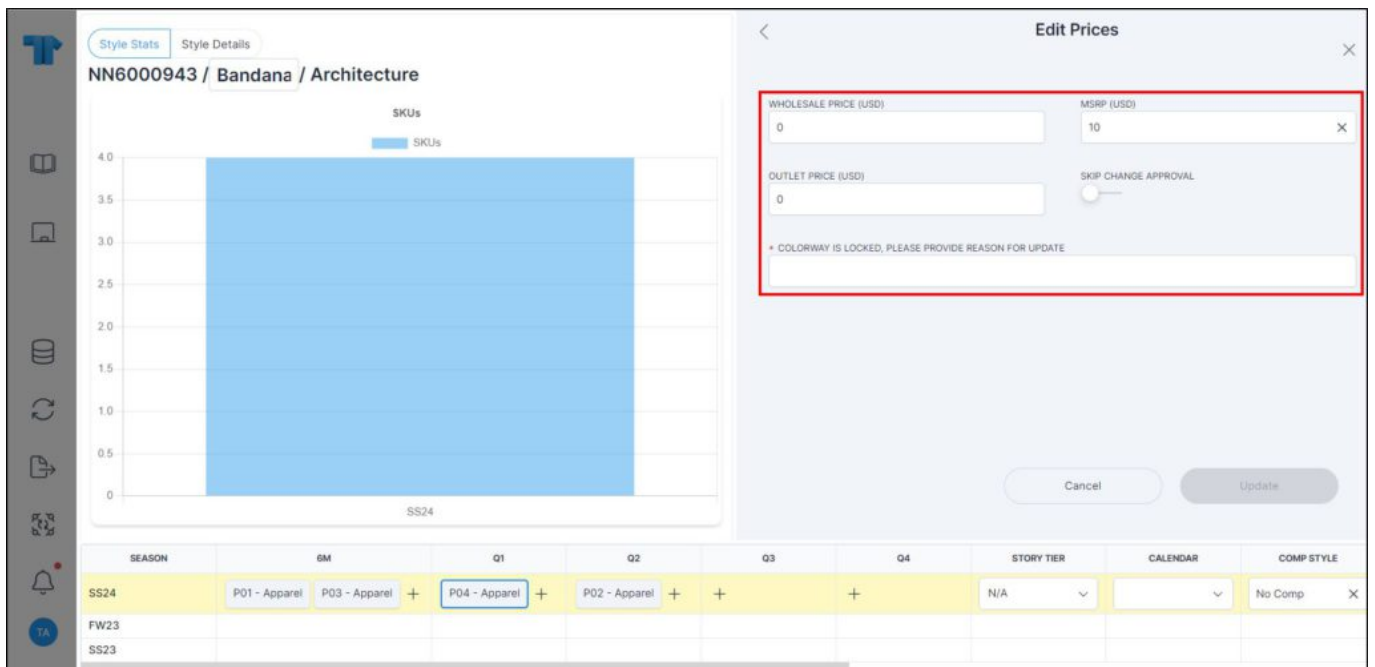

Enter the prices then click **Update**. You can also select multiple colorways then click **Edit prices** and repeat the steps mentioned above.

Notes:

- If the flag “Apply price by style” is activated for the catalog, the price is updated for all the colorways of that style, if the user has the required privileges.
- If prices are locked for the selected colorway state, they cannot be updated and fields are deactivated as shown in the below example:

- If the colorway is locked, prices cannot be changed directly, and the change should be approved by authorized users in Change management module. Below is an example:

Admin users can click the slider to skip the change approval. Also, when the Price by style slider is activated for the catalog and prices are updated for a model that has at least one locked colorway, the update should be approved through the change management module.
