

Requests

Different requests are supported in T1 Studio Web. You can add request colorways or similar style requests, if requests are enabled for the selected catalog.

Add request colorways

To add request colorways to a style, follow these steps:

1. View the style you want, then click the Add request button for the period you want, a small window appears to enable you to enter the number or request colorways as shown in the below example:

The screenshot displays the T1 Studio Web interface for a style named '1383494 / Unisex Bandana / SMS'. The main view shows a bar chart of SKUs for seasons SS24, FW24, and SS25. Below the chart is a table with columns for SEASON, EM, Q1, Q2, Q3, Q4, and STYLE LIFECYCLE. The SS24 row is highlighted in yellow and contains various colored buttons representing different periods. A red box highlights the 'Add Requests' dialog box, which is a small window with a text input field containing the number '0' and a checkmark button next to it.

2. Enter the number of requests you want for each period then click the checkmark next to it,
3. Click **Save**, the following window appears:
