

Generate slides - Tech sheet

You can create slides containing the articles you want using the Tech sheet template. To do so, follow these steps:

1. Click **Generate**, the following window appears:

The screenshot shows a window titled "Generate Slides" with a close button (X) in the top right corner. At the top, there is a progress bar with five steps: 1. Template (highlighted with a blue circle), 2. Articles, 3. Map Columns, 4. Options, and 5. Finish. Below the progress bar, a message reads: "Please select the template you would like to use and the source from where the articles will be loaded". Under the heading "★ TEMPLATE", there is a dropdown menu currently set to "Tech Sheet". Under the heading "★ ARTICLES SOURCE (LIMIT 500)", there are five radio button options: "Full Catalog" (selected), "Favorites", "List of Articles", "List of Models", and "Excel File". At the bottom right, there are two buttons: "Back" (disabled) and "Next" (active).

You can either include all catalog articles, your favorite articles, a list of articles or models, or using an Excel file.

2. Select the article source you want, options differ depending on the selected source,

- If "Favorites" is selected, you need to select the favorite tags,
- If "List of articles" is selected, you need to paste the article numbers each on a separate line,
- If "List of models" is selected, you need to paste the model numbers, each on a separate line,
- If "Excel file" is selected, you need to browse for the file that contains the articles,

2. Click **Next**, the following window appears:

The screenshot shows the 'Generate Slides' dialog box with a progress bar at the top indicating five steps: 1. Template, 2. Articles, 3. Map Columns, 4. Options (current step), and 5. Finish. Below the progress bar, a message states: 'The selected template allows you to change some options that will impact the generated slides'. There are two dropdown menus: 'FOLDER' with 'Default' selected and a '+' icon to its right, and 'SLIDE SIZE' with 'wideScreen' selected. At the bottom, there are 'Back' and 'Next' buttons.

3. Select the folder to which you want to add the slides, or click + and add a new folder to which the generated slides are to be added,
4. Select the slide size, the selected size appears next to the slide name,
5. Click **Next**, the following window appears:

The screenshot shows the 'Generate Slides' dialog box with the progress bar now showing all five steps completed. A message states: 'We are now ready to generate the slides. Please review the summary below then hit the "Finish" button to proceed...'. Below this, there is a summary table:

Template:	Tech Sheet
Articles Source:	full

At the bottom, there are 'Back' and 'Finish' buttons.

6. Click **Finish**, slides are added to the selected folder as shown in the below example:
