

# Colorway color

Through this module, you can assign colors to the colorways. This color will be displayed in T1 Studio for colorways with no images. Colors which can be assigned to colorways are defined at the catalog level as mentioned in "[Color definition](#)".

Select the catalog then click **Colorway color**, the following page appears:

Colorway Number	Color Name	Print	Status	Updated Date	Actions
<input type="checkbox"/> 1379446-P01	White	False	Active	Aug 1, 2022	⋮
<input type="checkbox"/> 1382532-S01	After Burn	False	Active	Nov 11, 2022	⋮
<input type="checkbox"/> 1005684-390	After Burn	False	Active	Oct 3, 2023	⋮
<input type="checkbox"/> 1005684-103	Ash Taupe	True	Active	Feb 23, 2024	⋮
<input type="checkbox"/> 1252132-100	Aqua Foam	True	Active	Feb 23, 2024	⋮
<input type="checkbox"/> 1005684-450	Capri	False	Active	Feb 23, 2024	⋮

Colorways with colors assigned to them are listed. For each one the print flag, status, and update date are displayed.

You can assign a color to a colorway, update the color, or delete any of them, in addition to importing a list of colorway colors as mentioned in the following sections.
