

Update article segmentation

To update the segmentation(s) for a single article, follow these steps:

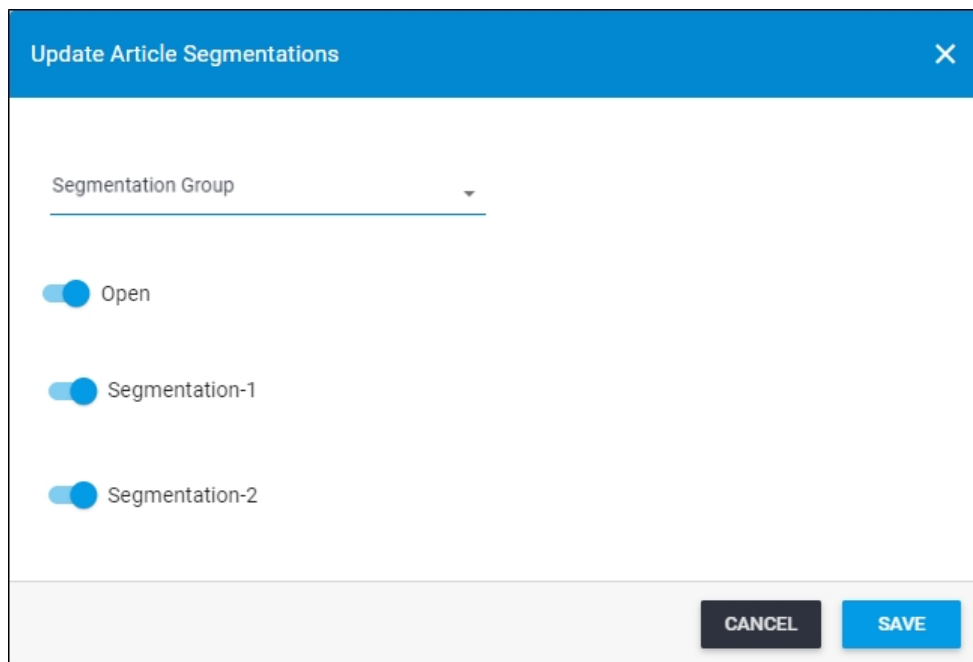

1. Select “Edit Record” from the Actions menu next to the article you want, the following window appears:

The image shows a dialog box titled "Edit Article Segmentation" with a blue header bar and a close button (X) in the top right corner. The main area is white and contains three controls: a toggle switch labeled "Open" which is currently turned off, and two checkboxes. The first checkbox is checked and is followed by a blue slider button labeled "Segmentation-1". The second checkbox is unchecked and is followed by a grey slider button labeled "Segmentation-2". At the bottom right of the dialog, there are two buttons: a dark grey "CANCEL" button and a light grey "SAVE" button.

2. Click the checkbox next to the segmentation you want to update. Unchecked checkboxes will remain unchanged,
3. Click the slider button next to the segmentation you want to assign to the article, the selected segmentation will be marked with “Yes”, while the other segmentations will be marked with “No”,
4. Click the checkbox next to the segmentation you want to update. Unchecked checkboxes will remain unchanged,
5. Click the slider button next to the segmentation you want to assign to the article, the selected segmentation will be marked with “Yes”, while the other segmentations will be marked with “No”,
6. Click **Save**, a progress window is displayed and segmentations are updated.

Notes:

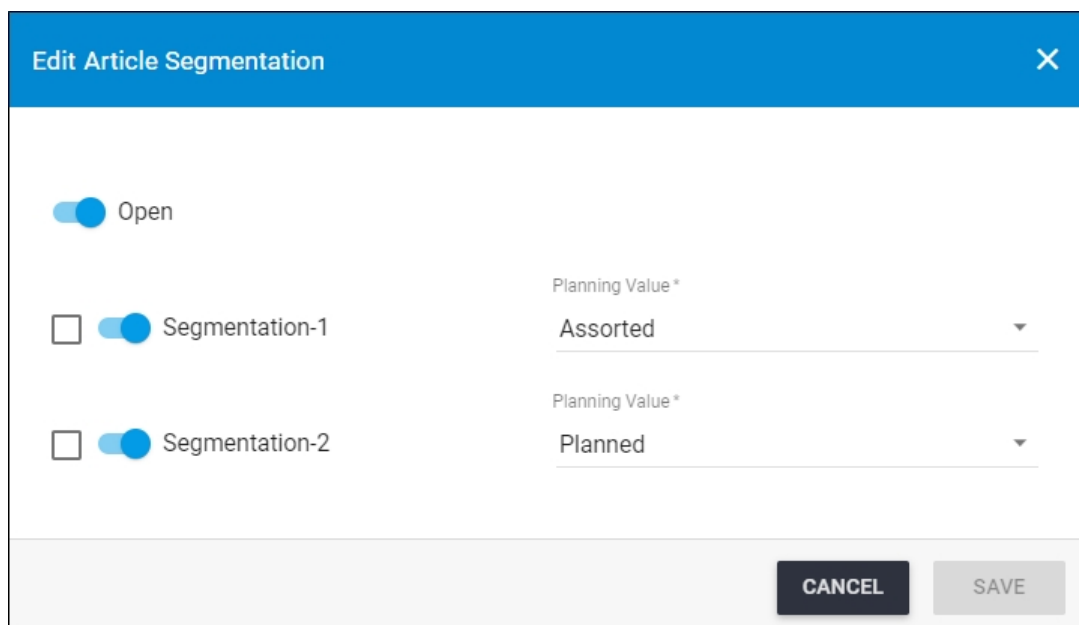

- If a segmentation group is added to the selected catalog, the window appears as shown below:

The dialog box titled "Update Article Segmentations" features a blue header bar with a close button (X) on the right. Below the header, there is a "Segmentation Group" dropdown menu. Underneath, there are three toggle switches, all of which are turned on (blue). The first toggle is labeled "Open", the second is "Segmentation-1", and the third is "Segmentation-2". At the bottom right of the dialog, there are two buttons: a dark gray "CANCEL" button and a blue "SAVE" button.

Once you select the segmentation group, segmentations added to the group are automatically activated.

- If the "Segmentation Planning" option is enabled for the selected catalog, the window appears as shown below:

The dialog box titled "Edit Article Segmentation" has a blue header bar with a close button (X) on the right. The main content area contains three rows. The first row has a toggle switch labeled "Open" which is turned on. The second and third rows each have a checkbox followed by a toggle switch labeled "Segmentation-1" and "Segmentation-2" respectively; both checkboxes are unchecked. To the right of these rows are two "Planning Value *" dropdown menus. The first dropdown is set to "Assorted" and the second is set to "Planned". At the bottom right, there are two buttons: a dark gray "CANCEL" button and a light gray "SAVE" button.

Click the slider button next to the segmentation you want to activate then select the

planning value from the dropdown menu below it.
