

Update segmentation for multiple articles

To update segmentations for multiple articles, follow these steps:

1. Click the checkbox(es) next to the articles you want,
2. Click  , the following window appears:

A dialog box titled "Edit Article Segmentation" with a blue header bar containing a close button (X). The main area is white and contains three controls: a toggle switch labeled "Open" which is currently turned off, and two checkboxes. The first checkbox is checked and is followed by a blue slider button labeled "Segmentation-1". The second checkbox is unchecked and is followed by a grey slider button labeled "Segmentation-2". At the bottom right, there are two buttons: a dark blue "CANCEL" button and a light grey "SAVE" button.

Edit Article Segmentation

☐ Open

☒  Segmentation-1

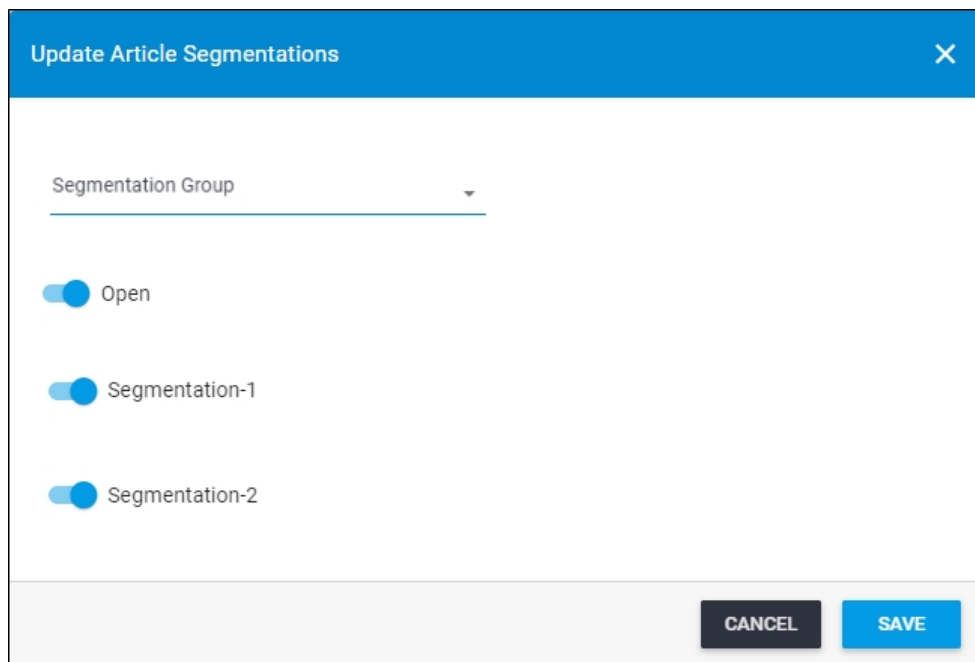

☐  Segmentation-2

CANCEL SAVE

2. Click the checkbox next to the segmentation you want to update, unchecked checkboxes will remain unchanged,
3. Click the slider button next to the segmentation you want to assign to the article(s), the selected segmentation will be marked with "Yes", while the other segmentations will be marked with "No". If you select Open, all segmentations are assigned to the selected articles,
4. Click **Save**, a progress window is displayed and segmentations are updated.

Notes:

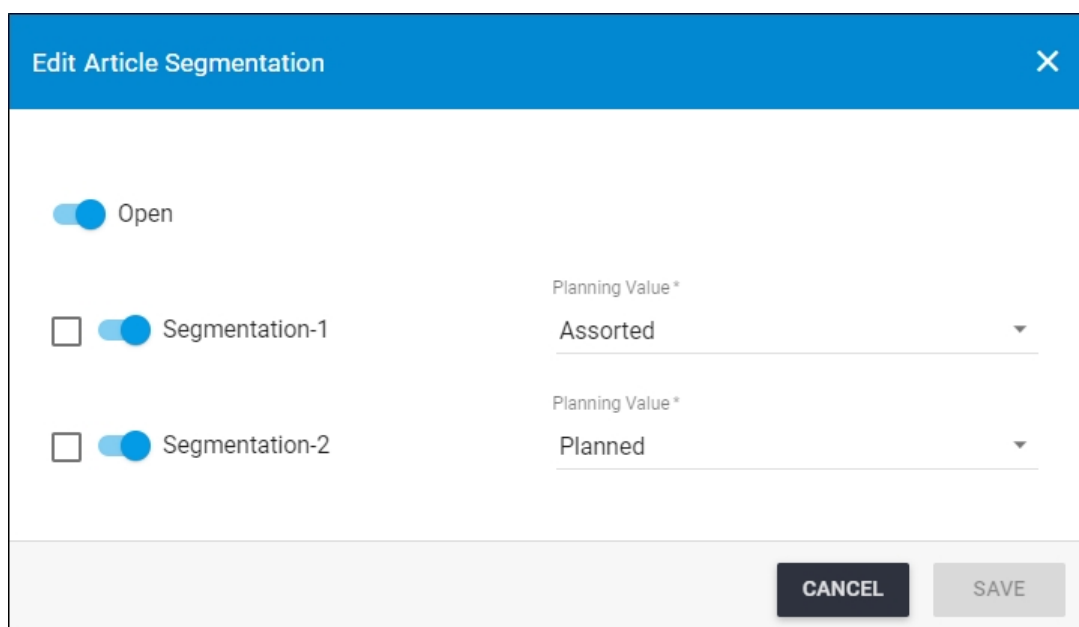

- If a segmentation group is added to the selected catalog, the window appears as shown below:

The dialog box has a blue header with the title "Update Article Segmentations" and a close button (X). Below the header is a dropdown menu labeled "Segmentation Group". Underneath the dropdown are three toggle switches, all of which are turned on (blue). The first toggle is labeled "Open", the second is "Segmentation-1", and the third is "Segmentation-2". At the bottom right of the dialog are two buttons: "CANCEL" and "SAVE".

Once you select the segmentation group, segmentations added to the group are automatically activated.

- If the “Segmentation Planning” option is enabled for the selected catalog, the window appears as shown below:

The dialog box has a blue header with the title "Edit Article Segmentation" and a close button (X). Below the header are three rows of controls. The first row has a toggle switch labeled "Open" which is turned on. The second and third rows each have a checkbox followed by a toggle switch. The second row's checkbox is unchecked and its toggle is labeled "Segmentation-1". The third row's checkbox is unchecked and its toggle is labeled "Segmentation-2". To the right of these rows are two dropdown menus, both labeled "Planning Value *". The first dropdown is set to "Assorted" and the second is set to "Planned". At the bottom right are two buttons: "CANCEL" and "SAVE".

Click the slider button next to the segmentation you want to activate then select the

planning value from the dropdown menu below it.
