

Update segmentation for multiple articles

To update segmentations for multiple articles, follow these steps:

1. Click the checkbox(es) next to the articles you want,
2. Click , the following window appears:

The screenshot shows a dialog box titled "Edit Article Segmentation". It contains a toggle switch for "Open" (currently off), and two segmentation options: "Segmentation-1" (checkbox unchecked, slider blue) and "Segmentation-2" (checkbox unchecked, slider grey). At the bottom right are "CANCEL" and "SAVE" buttons.

2. Click the checkbox next to the segmentation you want to update, unchecked checkboxes will remain unchanged,
3. Click the slider button next to the segmentation you want to assign to the article(s), the selected segmentation will be marked with "Yes", while the other segmentations will be marked with "No". If you select Open, all segmentations are assigned to the selected articles,
4. Click **Save**, a progress window is displayed and segmentations are updated.

Notes:

- If a segmentation group is added to the selected catalog, the window appears as shown below:

Update Article Segmentations

Segmentation Group

Open

Segmentation-1

Segmentation-2

CANCEL SAVE

Once you select the segmentation group, segmentations added to the group are automatically activated.

- If the “Segmentation Planning” option is enabled for the selected catalog, the window appears as shown below:

Edit Article Segmentation

Open

Segmentation-1

Planning Value*
Assorted

Segmentation-2

Planning Value*
Planned

CANCEL SAVE

Click the slider button next to the segmentation you want to activate then select the

planning value from the dropdown menu below it.
