

View colorway state

To view a colorway state, click its record or select View record from the Actions menu next to it, its details are displayed as shown in the below example:

The screenshot displays a web interface for viewing a colorway state. At the top, there are three tabs: 'Colorway State' (selected), 'Required Attributes', and 'Non Editable Attributes'. Below the tabs, the state name 'Production' is shown with a green 'Active' status indicator. To the right of the state name are three icons: a trash can, a refresh icon, and a circular arrow icon. The main content area is divided into two columns of attributes, each with a label and a value. The left column includes: State Id (4), State Rank (4), Is Style Level (True), Assign Final Colorway/Style Number (True), Is Style Name Editable (True), Is Size Scale Editable (False), and Created Date (Jul 2, 2022). The right column includes: State Name (Production), Status (Active), Is Default (False), Is Size Scale Required (False), Allow Change Request For Style Name (False), Allow Change Request For Size Scale (False), and Updated Date (Apr 26, 2023). A red circular icon with a white pencil is located in the bottom right corner of the interface.

State Id	4	State Name	Production
State Rank	4	Status	Active
Is Style Level	True	Is Default	False
Assign Final Colorway/Style Number	True	Is Size Scale Required	False
Is Style Name Editable	True	Allow Change Request For Style Name	False
Is Size Scale Editable	False	Allow Change Request For Size Scale	False
Created Date	Jul 2, 2022	Updated Date	Apr 26, 2023

The state details are displayed, such as the state Id, rank, status, and the user who created and updated this state, etc. You can update and delete the colorway state as in coming sections.

State attributes acts as conditions on the colorway states and when conditions are met, actions can be applied. Required state attributes are attributes which must have values in order to be set for a colorway, such as colorway color or gender. Go to the Required attributes tab, attributes are displayed as shown in the below example:

Colorway State			
Required Attributes			
Non Editable Attributes			
Attribute Id	Attribute Name	Attribute System Name	Criteria
<input type="checkbox"/>	91	Category	Category
<input type="checkbox"/>	7	Class	SubSilhouette ('BestFor':['adults'])
<input type="checkbox"/>	57	Characteristics	Characterstics

Attribute names and system names are listed. If dependent attributes are specified, they are displayed in the criteria column along with their values.

While the non-editable attributes values cannot be changed once the state is set for the colorway, for example, changing the color of a colorway that is already in the selling state is not allowed. Go to the Non editable attribute tab, the following page appears:

Colorway State		Required Attributes		Non Editable Attributes	
Attribute Id	Attribute Name	Attribute System Name	Allow Change Request		
<input type="checkbox"/> 26	Fabric	Fabric	● False		
<input type="checkbox"/> 12	Colorway	Colorway	● True		

Attribute names and attribute system names are listed and whether change requests are allowed or not.
