# Edit catalog model

T1 provides two methods for updating catalog models:

- Update individual catalog model using the **Edit** option
- Update multiple catalog models using the **Update Bulk** option

Edit single catalog model

To edit a catalog model, view the model then click the edit button or select Edit record from the Actions menu next to the model. The model information is displayed as shown in the below example:

Update any of the displayed information then click **Save**.

Edit bulk

Note:

- This option is only available for authorized users.

To edit multiple catalog styles, follow these steps:

1. Select the catalog models you want to update, you can either click the checkbox on top of the records to select all models, or click the checkbox next to the model you want,
2. Click **Update bulk**, the following window appears:

3. Update any of the displayed information then click **Save**, the following message appears:

4. Click **Confirm** if you want the changes to be reflected on the models and articles of the selected catalog models in all seasons.
