

Add restricted attributes

To restrict an attribute, follow these steps:

1. Click the add button, the following window appears:

The image shows a 'Create Attribute Restriction' dialog box. It has a blue header bar with the title 'Create Attribute Restriction' and a close button (X) on the right. The main area is white and contains three input fields: 'Account Type*' (a dropdown menu), 'Role Name*' (a text input), and 'Attribute Id' (a text input). To the right of the 'Attribute Id' field are two toggle switches: 'Not Viewable' and 'Not Editable'. Both switches are currently turned off. At the bottom right of the dialog are two buttons: 'CANCEL' and 'SAVE'.

2. Select the account type, then role name,
3. Select the attribute Id,
4. Click the slider button next to *Not viewable* if you want the attribute to be hidden to the selected role, the *Not editable* slider is automatically activate,
5. Click the slider button next to *Not editable*, if you want to prevent users from updating the attribute value,
6. Repeat the above steps if you want to add more attributes,
7. Click **Save**. The attribute is added to the list.
