

Color definition

Through this tab, you can define color codes for articles of master catalog. These colors can be assigned to placeholder images for articles with no images. The tab appears as shown in the below example:

Request Attributes Request Channel Request Reasons Bucket Attributes Restrict Bucket Attributes Linked Catalogs Color Definition						
0 of 4 Selected						
Id	Color Name	Color Code	Status	Updated By	Update Date	Actions
4	White	#FFFFFF	Active	admin@trasix.com	Aug 11, 2021	
3	Black	#000000	Active	admin@trasix.com	Aug 11, 2021	
2	Blue	#0000FF	Active	admin@trasix.com	Aug 11, 2021	
1	Red	#FF0000	Active	admin@trasix.com	Aug 11, 2021	

Colors for the selected catalog are listed. For each one, the color code, status, the user who updated the record, and the date. The following sections discuss how to add, update, and delete color definitions, in addition to importing a list of colors.
