

Import retail windows

To import a file with retail windows, follow these steps:

1. Click the **Import** button, the following window appears:

The screenshot shows the 'Import Data' window with a blue header and a close button. The progress bar indicates the following steps: 1 File (selected), 2 Sheet, 3 Mapping, 4 Filter (checked), 5 Validation, and 6 Information (checked). The main area has two radio buttons: 'Last Used File' (unselected) and 'New File' (selected). Below the radio buttons is a text input field labeled 'Filename:' containing '[none]' and a 'SELECT...' button. At the bottom are 'BACK' and 'NEXT' buttons.

2. Click **Select** to browse for the file you want to import,
3. Select the file then click **Open**, the name of the file you selected appears in its field,
4. Click **Next**, the following window appears:

You can click **Back** to return to the previous window.

5. Select the sheet you want from the dropdown list in case your Excel file contains more than one sheet,
6. Click **Next**, the following window appears:

Import Data

File Sheet Mapping Filter **5** Validation Information
