

Segmentation group

Through this tab you can group segmentations for the catalog and assign the group to the article instead of adding segmentations individually. The tab appears as shown in the below example:

The screenshot shows a web interface with a navigation bar at the top containing tabs: Segmentation Group (selected), Segmentations, Restrict Segmentations, Size Scales, Stock Definition, Tree, Attribute Vetting List, and Seller Users. Below the navigation bar is a toolbar with icons for selection, refresh, and a blue button labeled "0 of 1 Selected". The main content area is a table with the following structure:

Segmentation Group	Segmentations	Status	Updated Date	Actions
<input type="checkbox"/> Group 1	Segmentation-1, Segmentation-2	Active	Oct 13, 2022	

A red circular button with a white plus sign is located in the bottom right corner of the table area.

Segmentation groups are listed, along with the segmentations added to each group, status, and updated date. You can add a new segmentation group, edit, delete, or activate any of the existing groups as mentioned in the coming sections.
