

## Activate colorways

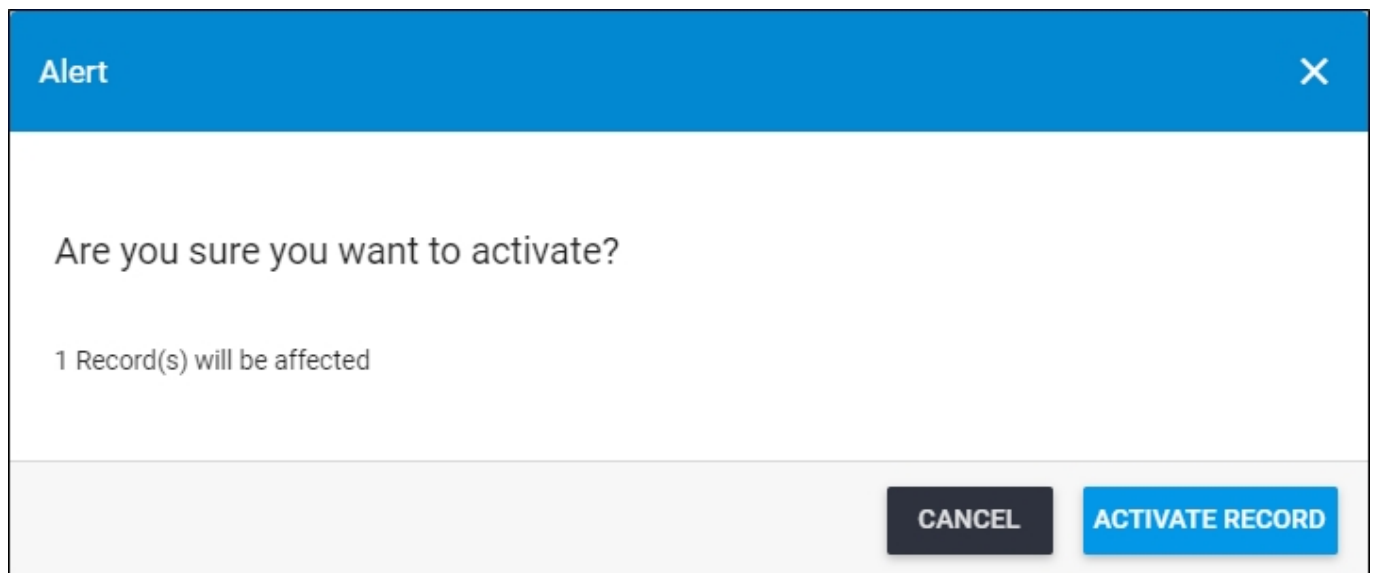

### Notes:

- Activating colorways will cause order lines containing those colorways to be reactivated in the master catalog.
- Activating colorways in the master catalog will not activate them for its inherited catalogs.

To activate any of the deleted colorways, follow these steps:

1. Select the colorways you want to activate by following any of these methods:
  - Select “Activate Record” from the Actions menu next to the colorway you want to activate,
  - Click the checkbox on top of the records to select all colorways then click the **Activate** button,
  - Click the checkbox(es) next to the colorway you want then click the **Activate** button,

The following message appears showing the number of selected colorways:

You can click **Cancel** to keep the records inactive.

2. Click **Activate Record** to confirm activating the colorways. The colorway status changes to “Active”.
