

Manage state

If states are configured for the selected catalog, you can update the states for one or multiple colorways. This option is only available for Master catalogs.

Manage state for one colorway

View the colorway then click , the following window appears:

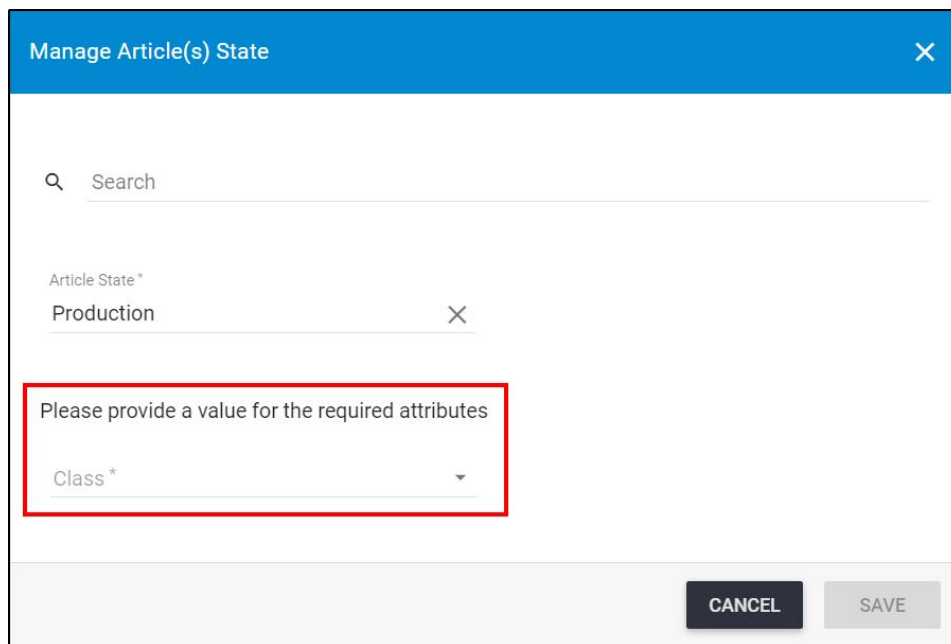

The 'Edit Record' window is a modal dialog with a blue header bar containing the title 'Edit Record' and a close button (X). The main content area is white and contains a search bar with a magnifying glass icon and the placeholder text 'Search'. Below the search bar is a dropdown menu labeled 'Article State *' with the current selection 'Design' and a close button (X). At the bottom of the window, there are two buttons: 'CANCEL' and 'SAVE'.

Select the state you want then click **Save**.

Notes:

- You cannot change the state of a colorway to a previous state. Only the valid states (with a rank higher than the current one) are displayed within the dropdown list. This applies for single and bulk actions.
- If the size scale or attributes are required for the selected state and no values are assigned to them, fields are displayed to enable you to enter the required values, then the article is promoted to the selected state. Below is an example:

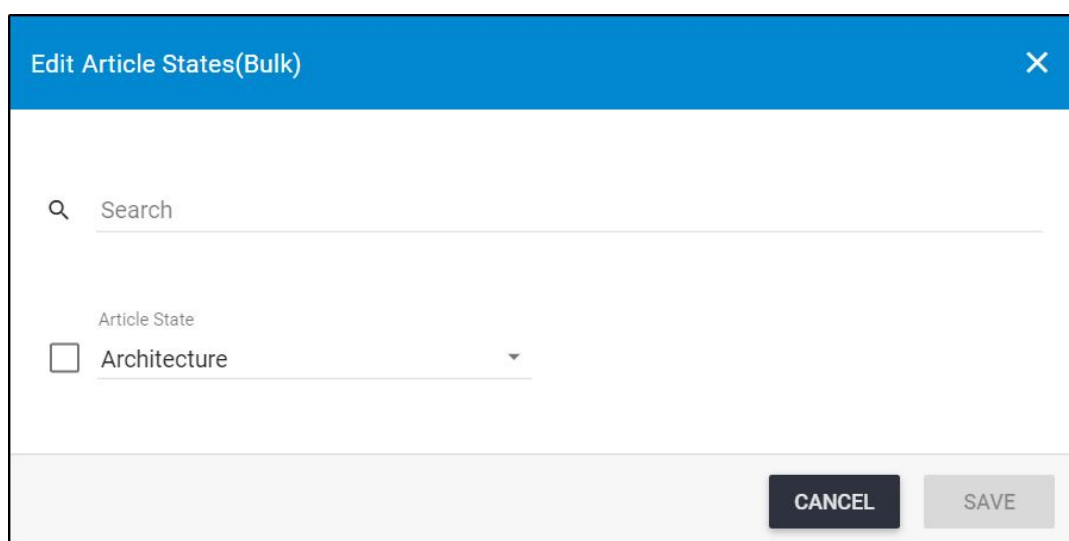

The dialog box has a blue header with the title "Manage Article(s) State" and a close button (X). Below the header is a search bar with a magnifying glass icon and the placeholder text "Search". Underneath the search bar is a label "Article State *" followed by a text input field containing the word "Production" and a small "X" icon to its right. Below this is a red rectangular box containing the text "Please provide a value for the required attributes" and a dropdown menu labeled "Class *". At the bottom right of the dialog are two buttons: "CANCEL" and "SAVE".

- If the size scale is not editable for the selected state, and you have the required privilege, then you can still update it.

Manage state for multiple colorways (bulk)

Select the colorways you want then click the respective button, the following window appears:

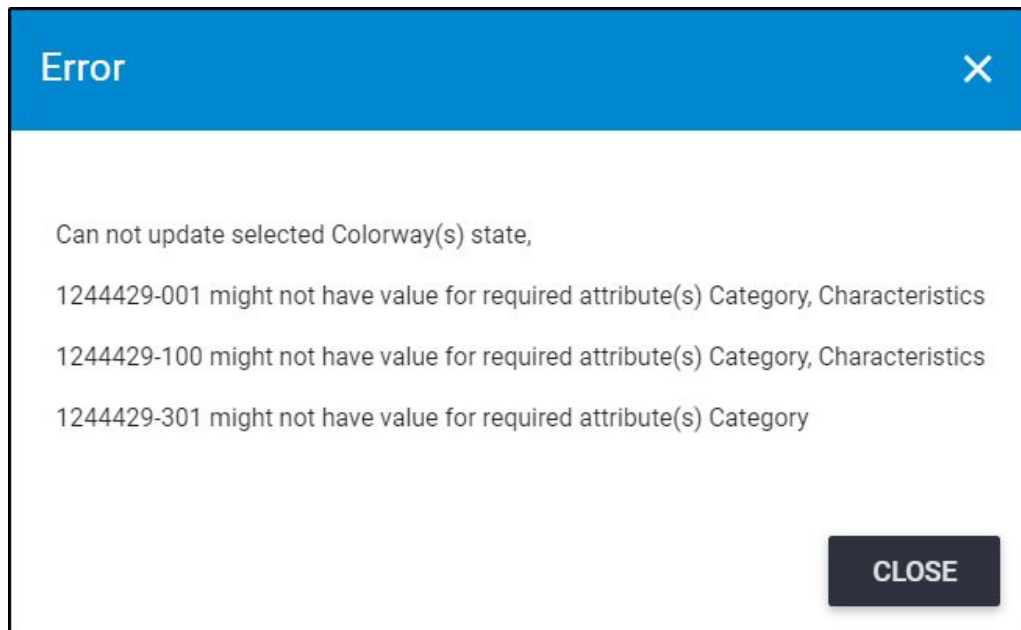

The dialog box has a blue header with the title "Edit Article States(Bulk)" and a close button (X). Below the header is a search bar with a magnifying glass icon and the placeholder text "Search". Underneath the search bar is a label "Article State" followed by a checkbox and a dropdown menu showing the word "Architecture". At the bottom right of the dialog are two buttons: "CANCEL" and "SAVE".

Select the state you want, then click **Save**.

Note:

- If you try to update the colorway state, and if the colorway attribute values do not match the criteria, the following message appears:

Attribute values should be updated to match the criteria in order to change the colorway state.
