

Overwrite colorway code (bulk)

You can import a file with colorway number and color code to update the colorway codes in bulk which will save the time and effort. To do so, follow these steps:

1. Click **Overwrite colorway code (bulk)**, the following window appears:

The image shows a software window titled "Import Data" with a blue header bar and a close button (X) in the top right corner. Below the header is a progress bar with six steps: 1. File (active, blue circle), 2. Sheet (grey circle), 3. Mapping (grey circle), 4. Filter (grey circle with a checkmark), 5. Validation (grey circle), and 6. Information (grey circle with a checkmark). The main area of the window contains two radio buttons: "Last Used File" (unselected) and "New File" (selected, blue circle). Below these is a text field labeled "Filename:" containing the text "[none]". To the right of the text field is a button labeled "SELECT...". At the bottom of the window are two buttons: "BACK" and "NEXT".

2. Click **Select** to browse for the file you want to import,
3. Select the file then click **Open**, the name of the file you selected appears in its field, click **Next**, the following window appears:

The image shows a software window titled "Import Data" with a blue header bar and a close button (X) in the top right corner. Below the header is a progress bar with six steps: "File" (checked), "Sheet" (checked), "Mapping" (active, highlighted with a blue circle and number 3), "Filter" (checked), "Validation" (active, highlighted with a grey circle and number 5), and "Information" (checked). The main area of the window contains the text "Please select the sheet that contains the data you wish to import" and a dropdown menu currently showing "Colorways". At the bottom of the window, there are two blue buttons labeled "BACK" and "NEXT".

You can click **Back** to return to the previous window.

4. Select the sheet you want from the dropdown list in case your Excel file contains more than one sheet,
5. Click **Next**, the following window appears:

Import Data

File Sheet Mapping Filter **5** Validation Information

Please select the columns in your sheet that match each of the following fields. All fields marked with a * are mandatory and must be mapped before continuing.

Search

Colorway Number* = Colorway Number X

Color Code* = Color Code X

BACK NEXT

Import Data

File Sheet Mapping Filter **5** Validation Information

Would you like to import all the rows in the sheet or only the rows that match a specific criteria?

☒ Import All Rows

☐ Import Only the Rows that match the following criteria:

BACK NEXT

7. Click the radio button next to the import method, either all rows or rows that match

certain criteria, a validation window appears informing you if records are valid or not, if not, you need to fix the sheet then import the file again,

8. Click **Next**, the following window appears:

The screenshot shows a window titled "Import Data" with a blue header and a close button (X) in the top right corner. Below the header is a progress bar with six steps: File, Sheet, Mapping, Filter, Validation, and Information. Each step has a blue checkmark icon, and the "Validation" step is currently selected. Below the progress bar, the text reads: "The sheet will be processed to identify if all the rows are valid to be imported". Underneath this text, there are four labels with corresponding input fields: "Status:" with a dropdown menu showing "Finished", "Total Valid Rows:" with a text box containing "5", "Total Invalid Rows:" with a text box containing "0", and "Total Skipped Rows:" with a text box containing "0". At the bottom of the window, there are two buttons: "BACK" and "NEXT".

Import Data

File Sheet Mapping Filter **Validation** Information

The sheet will be processed to identify if all the rows are valid to be imported

Status:
Finished

Total Valid Rows:
5

Total Invalid Rows:
0

Total Skipped Rows:
0

✓ No issues were detected in your source file. The data is ready to be imported.
