

Prices

Through this page, you can add prices to an article, using the Price Groups defined for the selected catalog. Prices can also be managed through the **Prices** module, refer to "[Prices](#)".

Go to the **Prices** tab, the following page appears:

The screenshot shows the 'Prices' tab interface. At the top, there are tabs: Article, Delivery Dates, Resources, Images, Sizes, **Prices**, Segmentation, History, and Related. Below the tabs, there is a header bar with a checkbox, a plus icon, and a blue button labeled '0 of 3 Selected'. To the right of the header bar are three vertical dots and a circular refresh icon. Below the header bar is a table with the following columns: Price Group Id, Name, Price, Updated Date, and Actions. The table contains three rows of data. Below the table is a large empty white space. At the bottom right corner of the interface is a red circular button with a white '+' sign.

Price Group Id	Name	Price	Updated Date	Actions
217	MSRP	40	Sep 18, 2018	
218	Wholesale Price	22	Sep 18, 2018	
219	Outlet	0	Apr 6, 2018	

Prices assigned to this article are listed, for each one the price group Id and name, and the currency are displayed.

If the Price by style option is activated for the catalog, prices cannot be managed here.

You can add a new price or edit any of the existing prices as mentioned next.

Notes:

- Prices cannot be deleted but they can be set to (0).
- If "Price by Style" option is activated, you cannot define prices for individual articles and prices should be done through the "[Prices](#)" module. The page appears as shown in the below example:

Colorway	Delivery Dates	Resources	Images	Sizes	Prices	Segmentation	History	Related
<input type="checkbox"/>		0 of 1 Selected						
Price Group Id	Name	Price	Updated Date					
<input type="checkbox"/> 1,429	MSRP	40	 Aug 30, 2022
