

Show all and Hide inactive

By default, active and inactive records are displayed in T1 and the Show All slider button is “Off” by default. Using this button, you can display “Active” records only and hide the inactive ones. To do so, click the Actions menu then click the slider button to turn it on, inactive records are hidden as shown below:

<div> <div> </div> <div>0 of 291 Selected</div> <div>Pre-Defined Filter ▾ Pre-Defined Columns ▾</div> </div>
