

Delete images

To delete images, follow these steps:

1. Select the image you want to delete by following any of these methods:
 - Select “Delete Record” from the Actions menu next to the image you want to delete,
 - View the record then click the **Delete** button,
 - Click the checkbox on top of the records to select all images then click the **Delete** button,
 - Click the checkbox(es) next to the images you want then click the **Delete** button,

The following message appears showing the number of selected images:

2. Click **Delete Record** to confirm deleting the images. Images status changes to “Inactive”. You can activate images as mentioned in “[Activate images](#)”.
