

## Orders charts

T1 provides the Charts feature which enables you to create charts and analyse your orders based on certain order fields such as customer code, quantity, location, creation date, etc. These charts can be created based on the count of orders having a certain field or based on the summation of values for a numeric field.

To view charts, follow these steps:

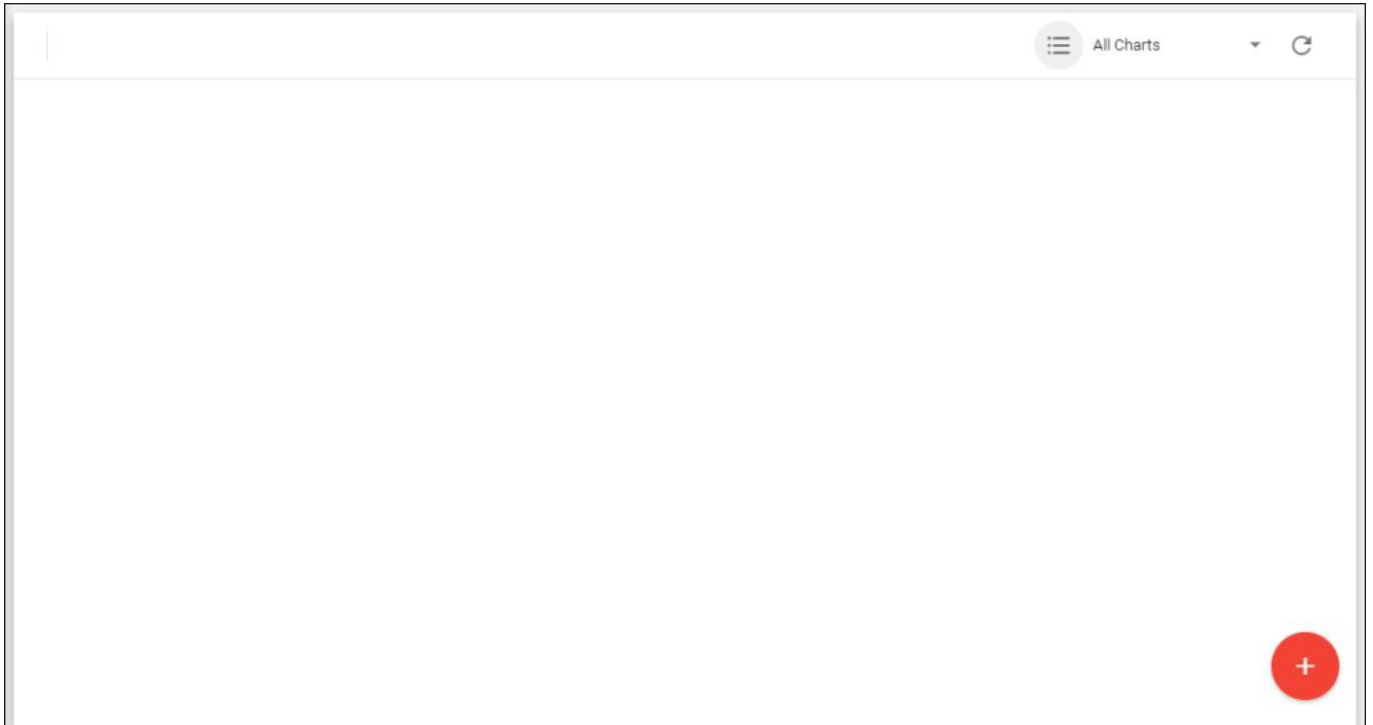

1. Select the catalog you want then click **Orders** from the left side menu, the following page appears:

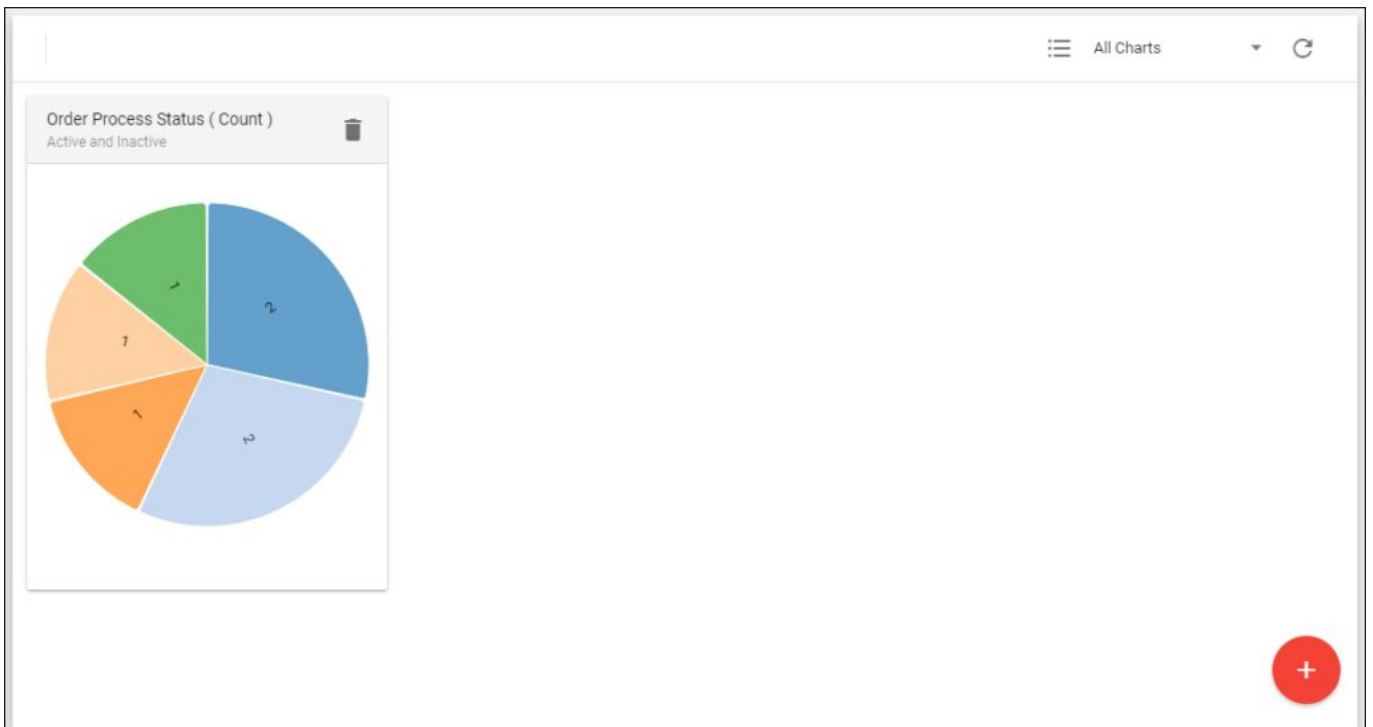

Orde... ⌵	Orde... ⌵	Cust... ⌵	Cust... ⌵	Loca... ⌵	Total... ⌵	Total... ⌵	Revi... ⌵	Status ⌵	Actions	
<input type="checkbox"/>	Bulk Order 2	Approved	11111	Customer A	Shop 1	195,200	570	4	● Active	⋮
<input type="checkbox"/>	Winter Order 1	Approved	11111	Customer A	Shop 1	56,100	320	0	● Active	⋮
<input type="checkbox"/>	Bulk Order 1	Confirmed	11111	Customer A	Shop 2	136,800	540	0	● Active	⋮
<input type="checkbox"/>	Winter Order 3	Reopened	33333	Customer C	Shop 1	205,600	560	0	● Inactive	⋮
<input type="checkbox"/>	Winter Order 4	Disapproved	33333	Customer C	Shop 2	423,600	840	0	● Active	⋮
<input checked="" type="checkbox"/>	Bulk Order 3	Submitted	11111	Customer A	Shop 1	204,400	540	3	● Active	⋮
<input type="checkbox"/>	Winter Order 2	Disapproved	11111	Customer A	Shop 1	125,900	750	0	● Active	⋮

The above orders are displayed in list view, for each order the order reference, order processing status, customer code, customer name, location name, total current value, total quantity, revision, and status are displayed depending on the columns you have chosen to show using the Column chooser.

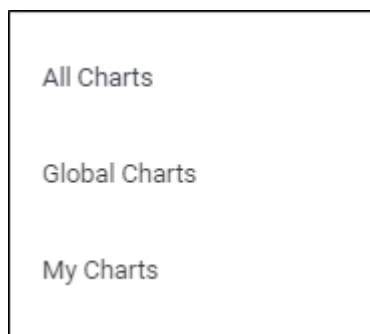

2. Click the **Charts** button, the following page appears if no charts are available:

If global charts which are created by a Trasix user are available, the page appears as shown next:

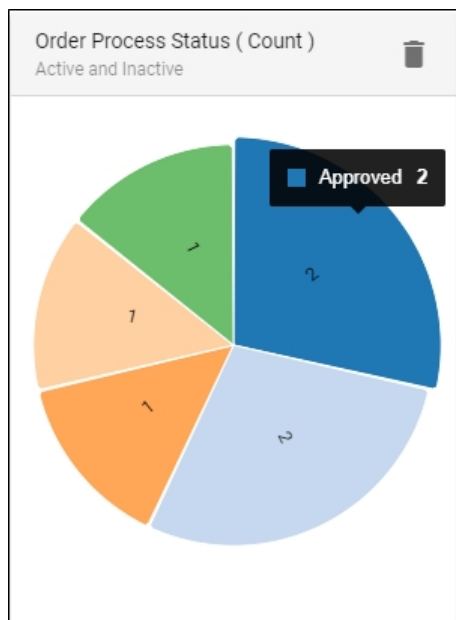

By default, All Charts are displayed. You can view all charts which include the global ones and the ones you have created, global charts only, or your charts only by clicking the arrow next to the charts menu, the following options appear:

Click the option you want.

You can go back to the list view by clicking .

As you hover the mouse over any of the charts sections, its information is displayed as shown in the below example:

You can also create a new chart or delete any of the charts you created as discussed in the coming sections.

**Note:**

- Global charts can only be created and deleted by a Trasix user.
