# View order lines

To view the order lines, follow these steps:

1. Go to **Order Lines** tab, order lines that are accepted are listed as shown below:

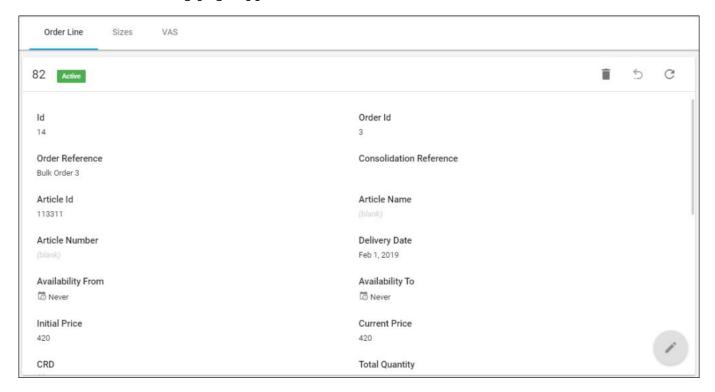

Articles added to this order are listed, for each one the delivery date, total quantity, total current value, order line status and updated date are displayed according to the columns you have chosen to show using the Column chooser.

Order lines with Zero quantity are also listed in the page but they will be excluded when the order is submitted. If the article segmentation is invalid, the order line will be active with a status as shown below:
	Article Id ⇕	Delivery Date ⇕	Total Quantity ⇕	Is Active ⇕	Status ⇕	Actions
☐	22222	Jan 1, 2021	70	● Active	● Article segmentation is deactivated, Allocation criteria failed	⋮
☐	11111	Jan 1, 2019	20	● Active	● Article Delivery Date is deactivated	⋮

2. Click the article you want to view or select "View Record" from the Actions menu next to it, the following page appears:
