

Saved views

Through this module, you can view the saved views created in T1 Studio by you in addition to the catalog level saved views. You can also update, delete, or activate any of the saved views.

Note:

- Trasix users can view all the catalog level saved views as well as saved views created for this catalog by all the users.

Go to **Saved views**, the following page appears:

Name	Is Catalog Level	Row Divider	Status	Updated By	Updated Date	Actions
6001484-032-State 6001484+	False	ArticleName	Active		Dec 12, 2022	
default teet	False	ArticleName	Active		Nov 25, 2022	
1375835-999 1375835-999	False	ArticleName	Active		Nov 24, 2022	
GenderBoys GenderBoys	False		Active		Nov 24, 2022	
temp temp	False	ArticleName	Active		Nov 23, 2022	
Boys-SeasonGrouping Boys-S	False	ArticleName	Active		Nov 21, 2022	
default seasonGrouping seas	True	ArticleName	Active		Nov 21, 2022	
6001264 6001264	False	ArticleName	Active		Nov 11, 2022	

The page lists the saved views for the selected catalog, for each one whether it is at catalog level, and the row divider which is optional for saved views, status, the user who updated the saved view, and the updated date are displayed.

The following sections discuss how to view, update, delete, and import a list of saved views, among other actions.
