

Add seasonless model attribute

To add a new seasonless model attribute, follow these steps:

1. Click  , the following window appears:

The 'New Record' window is a modal dialog with a blue header bar containing the title 'New Record' and a close button (X). The main content area is white and contains a search bar at the top with a magnifying glass icon and the placeholder text 'Search'. Below the search bar is a table with two columns: 'Attribute Group Name *' and 'Attribute'. The 'Attribute Group Name *' column has a red underline and the text 'Field required' below it. The 'Attribute' column has a dotted line below it. Below the table is a section titled 'Allowed Values' with the text 'Use enter to add value' and a text input field. Below that is a section titled 'Criteria' with a text input field. At the bottom of the window is a grey bar containing three buttons: 'CANCEL', 'SAVE', and 'SAVE AND NEW'.

You can search for the field you want by typing any of its words in the Search field.

2. Select the attribute group name, attributes of the selected group are returned in the dropdown list,
3. Select the attribute you want,
4. Enter the allowed vlaues for the attribute, if you want,
5. Enter the criteria if you want,
6. Click **Save** to add the attribute and close the window, or **Save and New** to add it and open a new window.
