

Add seasonless model attribute

To add a new seasonless model attribute, follow these steps:

1. Click , the following window appears:

The screenshot shows a 'New Record' window with a blue header and a close button (X) in the top right corner. Below the header is a search field with a magnifying glass icon and the text 'Search'. Underneath the search field is a dropdown menu labeled 'Attribute Group Name *' with a red underline and the text 'Field required' below it. To the right of the dropdown is a dotted line labeled 'Attribute'. Below the dropdown is a section titled 'Allowed Values' with the text 'Use enter to add value' and a text input field. Below that is a section titled 'Criteria' with a text input field. At the bottom of the window are three buttons: 'CANCEL', 'SAVE', and 'SAVE AND NEW'.

You can search for the field you want by typing any of its words in the Search field.

2. Select the attribute group name, attributes of the selected group are returned in the dropdown list,
3. Select the attribute you want,
4. Enter the allowed values for the attribute, if you want,
5. Enter the criteria if you want,
6. Click **Save** to add the attribute and close the window, or **Save and New** to add it and open a new window.
