

Import master size scales

You can import a file with master size scales instead of adding them individually which will save you time and effort. The size scale name, sizes, and status are mandatory columns. To import a file with size scales, follow these steps:

1. Click the **Import** button, the following window appears:

The 'Import Data' window is a modal dialog with a blue header bar containing the title 'Import Data' and a close button (X). Below the header is a progress bar with six steps: 1 File (active), 2 Sheet, 3 Mapping, 4 Filter (checked), 5 Validation, and 6 Information (checked). The main content area has two radio buttons: 'Last Used File' and 'New File' (selected). Below the radio buttons is a text input field labeled 'Filename:' with the placeholder text '[none]' and a 'SELECT...' button to its right. At the bottom of the window are two buttons: 'BACK' and 'NEXT'.

2. Click **Select** to browse for the file you want to import,
3. Select the file then click **Open**, the name of the file you selected appears in its field, click **Next**, the following window appears:

The screenshot shows a software window titled "Import Data" with a blue header bar and a close button (X) in the top right corner. Below the header is a progress bar with six steps: "File", "Sheet", "Mapping", "Filter", "Validation", and "Information". Each step has a circular icon with a checkmark. The "Validation" step is highlighted with a blue circle containing the number "5". The main area of the window contains the text "Please select the sheet that contains the data you wish to import" followed by a dropdown menu currently showing "Master Size Scales". At the bottom of the window are two blue buttons labeled "BACK" and "NEXT".

You can click **Back** to return to the previous window.

4. Select the sheet you want from the dropdown list in case your Excel file contains more than one sheet,
5. Click **Next**, the following window appears:
