

## Seller details - Seasonless model attributes

Through this tab, you can specify seasonless model attributes which are attributes that have the same value across seasons and users do not need to copy the attribute values from one season to another. Click **Seasonless model attributes**, the following page appears:

Attribute Name	System Name	Attribute Group Name	Updated Date	Attribute Type Name	Is Required	Actions
<input type="checkbox"/> Agegroup	agegroup	Trasix_Attributes	Jul 2, 2022	nvarchar	False	⋮
<input type="checkbox"/> Category (Sport)	Category	Trasix_Attributes	Jul 2, 2022	calc	False	⋮

Attributes are listed, for each one the attribute system name, group name, updated date, type name, and whether this attribute is required or not are displayed.

You can add a new attribute, delete, or activate any of the existing ones as mentioned in the coming sections.
