

Add watch filter

To add a watch filter, follow these steps:

1. Click  , the followin window appears:

The screenshot shows a 'New Record' window with a blue header bar containing a close button (X). The form contains several input fields: 'Name *' with a red underline and 'Field required' error message, 'User Name *' with a grey underline, 'Filter *' with a red underline and 'Field required' error message, 'Price Groups' with a grey underline, and 'Segmentations' with a grey underline. At the bottom, there are three buttons: 'CANCEL' (dark grey), 'SAVE' (light grey), and 'SAVE AND NEW' (light grey).

2. Enter the filter name,
3. Select the username,
4. Enter the filter in JSON format,
5. Select the price groups and segmentations, if you want,
6. Click **Save** to add the filter and close the window, or **Save and New** to add it and close the window. The filter is added to the list.
