

Update article segmentation

To update the segmentation(s) for a single article, follow these steps:

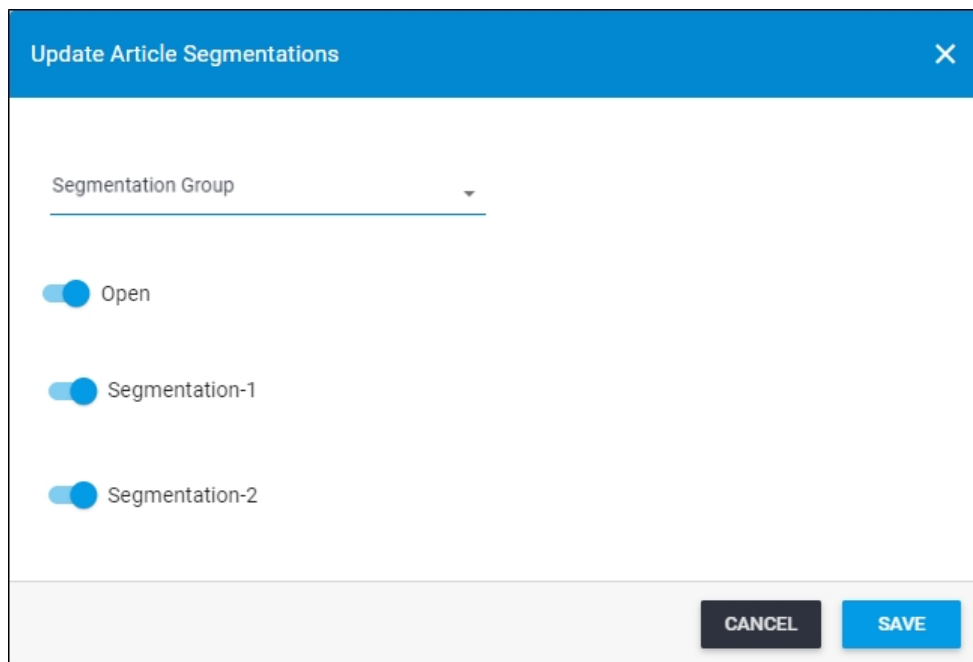

1. Select “Edit Record” from the Actions menu next to the article you want, the following window appears:

The image shows a dialog box titled "Edit Article Segmentation" with a blue header bar containing a close button (X). The main area is white and contains three controls: a toggle switch labeled "Open" which is currently turned off, and two checkboxes. The first checkbox is checked and is followed by a blue slider button labeled "Segmentation-1". The second checkbox is unchecked and is followed by a grey slider button labeled "Segmentation-2". At the bottom right of the dialog, there are two buttons: a dark grey "CANCEL" button and a light grey "SAVE" button.

2. Click the checkbox next to the segmentation you want to update. Unchecked checkboxes will remain unchanged,
3. Click the slider button next to the segmentation you want to assign to the article, the selected segmentation will be marked with “Yes”, while the other segmentations will be marked with “No”,
4. Click the checkbox next to the segmentation you want to update. Unchecked checkboxes will remain unchanged,
5. Click the slider button next to the segmentation you want to assign to the article, the selected segmentation will be marked with “Yes”, while the other segmentations will be marked with “No”,
6. Click **Save**, a progress window is displayed and segmentations are updated.

Notes:

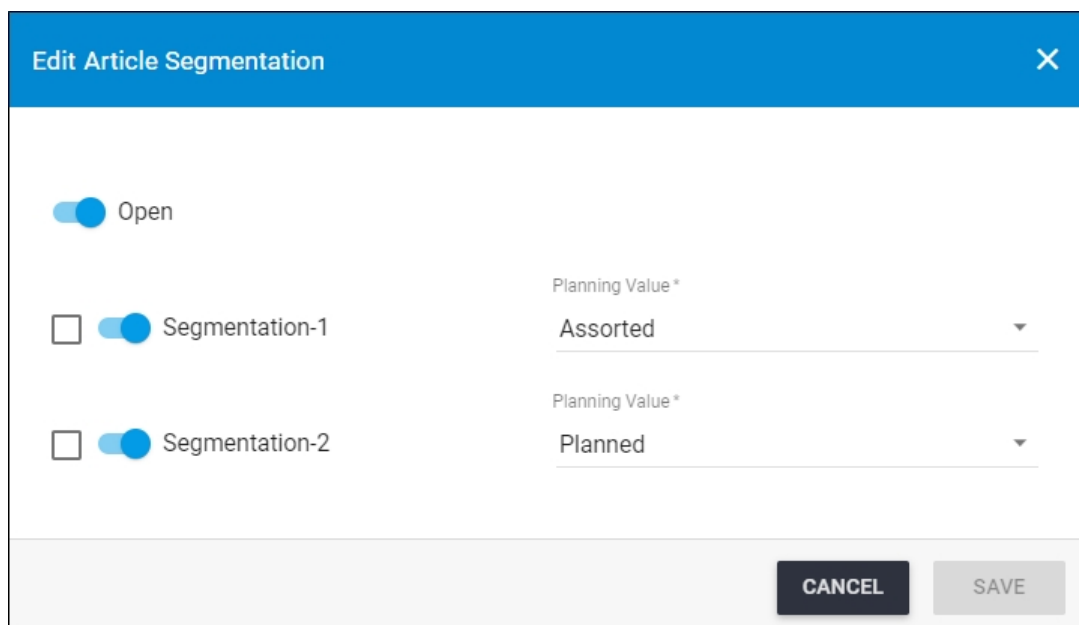

- If a segmentation group is added to the selected catalog, the window appears as shown below:

The 'Update Article Segmentations' dialog box features a blue header with a close button (X). Below the header is a 'Segmentation Group' dropdown menu. Three toggle switches are listed: 'Open' (active), 'Segmentation-1' (active), and 'Segmentation-2' (active). At the bottom right, there are 'CANCEL' and 'SAVE' buttons.

Once you select the segmentation group, segmentations added to the group are automatically activated.

- If the “Segmentation Planning” option is enabled for the selected catalog, the window appears as shown below:

The 'Edit Article Segmentation' dialog box has a blue header with a close button (X). It contains three rows of controls. The first row has an 'Open' toggle switch (active). The second and third rows each have a checkbox (inactive), a toggle switch (active), and a 'Planning Value *' dropdown menu. The dropdown for 'Segmentation-1' is set to 'Assorted', and the dropdown for 'Segmentation-2' is set to 'Planned'. At the bottom right, there are 'CANCEL' and 'SAVE' buttons.

Click the slider button next to the segmentation you want to activate then select the

planning value from the dropdown menu below it.
