Activate sizes

**Notes:**

- As mentioned before, if the "External Change Management" flag is activated and there is at least one locked article, the whole catalog is locked and you cannot activate sizes of any of its articles.
- Activating article sizes will cause order lines containing those sizes to include them again.

To activate any of the deleted sizes, follow these steps:

1. Select the sizes you want to activate by following any of these methods:

- Select "Activate Record" from the Actions menu next to the size you want to activate,
- Click the checkbox on top of the records to select all sizes then click the **Activate** button,
- Click the checkbox(es) next to the size you want then click the **Activate** button,

The following message appears showing the number of selected sizes:

You can click **Cancel** to keep the records inactive.

2. Click **Activate Record** to confirm activating the sizes. The size status changes to "Active".
