

Update multiple line architecture articles

This option allows you to update certain fields for multiple articles. To update a group of articles, follow these steps:

Select the articles you want to update by following any of these methods:

- Click the checkbox on top of the records to select all articles then click ,
- Click the checkbox(es) next to the article you want then click ,

The following window appears:

The screenshot shows a window titled "Edit Articles" with a close button (X) in the top right corner. The window contains several fields, each with a checkbox on the left:

- Article Name**: A text input field with a character count "0 / 100".
- End Use**: A dropdown menu with "Sideline" selected.
- Gender**: A dropdown menu with "Mens" selected.
- Product Family**: A dropdown menu with "Other" selected.
- SubSilhouette**: A dropdown menu with "Short-Sleeves" selected.
- SubSubSilhouette**: A dropdown menu with "Crew Neck" selected.
- UA Division**: A dropdown menu with "Apparel" selected.
- Silhouette**: A dropdown menu with "Tops" selected.

At the bottom right of the window, there are two buttons: "CANCEL" (dark grey) and "SAVE" (light grey).

As mentioned before, linked attributes for carryover articles cannot be updated and their fields are disabled.

Enter the values for the editable fields you want to update for the selected articles, the **Save** button is activated. Only checked values are updated, Click **Save**, the progress is displayed and articles are updated.
