

## Allow orders

As mentioned before, you can allow receiving orders for a catalog after stopping them. To do so, follow these steps:

1. View the catalog you want, the following page appears:

The screenshot displays the 'Winter Collection' catalog configuration page. The page has a top navigation bar with tabs: Catalog, Attributes, Configurations, Delivery Dates, Price Group, Segmentation Group, Segmentations, Stock Definition, and Tree. The 'Catalog' tab is selected. Below the navigation bar, the catalog name 'Winter Collection' is shown with an 'Active' status indicator. A toolbar with icons for delete, undo, redo, close, check, save, and refresh is located above the configuration area. The configuration area is divided into two columns. The left column contains: Season (Winter), Data Source Type (master), Catalog Code (10), Order Plugin (blank), Apply Size Scale (False), Apply Price by Style (False), Allow Requested Article Creation (True), and Master Catalog Code. The right column contains: Year (2,022), Seller Account (Emerging Market), Catalog Name (Winter Collection), Is Vas Enabled (True), Apply Retail Window (False), Independent Sizes (False), Reference Catalog, and Attribute Group Name. A red circular button with a pencil icon is located in the bottom right corner of the configuration area.

You can also select “Allow Orders” from the Actions menu next to the catalog you want.

2. Click **Allow Orders**, the following message appears:

Alert
