

Update prices

T1 provides two methods for updating prices:

- Update prices for individual articles using the **Edit** option
- Update prices for a group of articles using the **Update Bulk** option

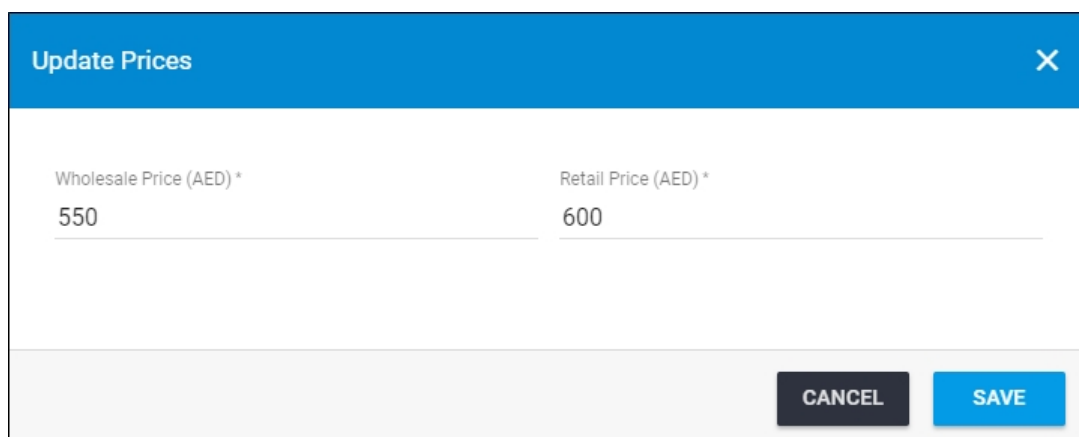

Notes:

- If the “External Change Management” flag is not activated, price changes for locked articles will not take effect until approved by the Change Management Approver user.
- If the “External Change Management” flag is activated and at least one article is locked, you cannot update prices of any of the articles. Changes to article prices are managed by an external system.
- Depending on the catalog configuration, the number of decimals for prices is validated, so for example, you cannot enter a price with 3 decimals if the catalog is configured to 2 decimals.

Update prices for individual articles

To update prices for individual articles, follow these steps:

1. Select “Edit Record” from the Actions menu next to the article which you want to update its price, the following window appears:

Update Prices	
Wholesale Price (AED) *	Retail Price (AED) *
550	600
<div>CANCEL SAVE</div>	

If the article is locked and the “External Change Management” flag is not activated, the window appears as shown below:

Update Prices

Wholesale Price (AED) *

220

Retail Price (AED) *

250

Article is Locked, Please Provide Reason for Update *

0 / 2000

CANCEL

SAVE

You need to enter the reason for the price change. As mentioned before, changes to locked articles prices do not take effect unless they are approved by the authorized user.

2. Update any of the displayed information,
3. Click **Save**, a message appears on the page informing you that the record is updated successfully.

Update bulk

This option allows you to update prices for multiple articles. To do so, follow these steps:

1. Select the articles for which you want to update the price by following any of these methods:
 - Click the checkbox on top of the records to select all articles then click ,
 - Click the checkbox(es) next to the article you want then click ,

The following window appears:

The screenshot shows a window titled "Edit Prices" with a blue header and a close button (X). Inside, there are two input sections. The first section, labeled "Wholesale Price (AED)", has a checkbox that is checked and a numeric input field with a spinner. The second section, labeled "Retail Price (AED)", also has a checked checkbox and a numeric input field containing the value "600". At the bottom right, there are two buttons: "CANCEL" and "SAVE".

If any of the selected articles is locked and the “External Change Management” flag is not activated, the window appears as shown below:

This screenshot shows the "Edit Prices" window in a disabled state. The checkboxes for both "Wholesale Price (AED)" and "Retail Price (AED)" are unchecked, and the input fields are greyed out. Below these fields, a text prompt reads "Article is Locked, Please Provide Reason for Update *". At the bottom right, the "CANCEL" and "SAVE" buttons are still present.

You need to enter the reason for the price change. As mentioned before, changes to locked articles prices do not take effect unless they are approved by the authorized user.

2. Enter the price values you want for each price group,
3. Click **Save**, progress is displayed,
4. Wait until the job is finished then refresh the page, values are updated for the selected articles.
