

Import shared folder users

Note:

- This option is only available for authorized users.

To import a list of folders and users, and specify whether the user is allowed to share the folder or not, follow these steps:

1. Click the **Import Users**, the following window appears:

The screenshot shows a window titled "Import Data" with a blue header bar and a close button (X) in the top right corner. Below the header is a progress bar with six steps: 1. File (active, highlighted with a blue circle), 2. Sheet, 3. Mapping, 4. Filter (checked with a grey checkmark), 5. Validation, and 6. Information (checked with a grey checkmark). The main content area has two radio buttons: "Last Used File" (unselected) and "New File" (selected with a blue circle). Below the radio buttons is a text field labeled "Filename:" containing the placeholder "[none]". To the right of the text field is a button labeled "SELECT...". At the bottom of the window are two buttons: "BACK" and "NEXT".

2. Click **Select** to browse for the file you want to import,
3. Select the file then click **Open**, the name of the file you selected appears in its field, click **Next**, the following window appears:
