

Import shared folder users

Note:

- This option is only available for authorized users.

To import a list of folders and users, and specify whether the user is allowed to share the folder or not, follow these steps:

1. Click the **Import Users**, the following window appears:

The screenshot shows a window titled "Import Data" with a blue header and a close button (X) in the top right corner. Below the header is a progress bar with six steps: 1 File (selected), 2 Sheet, 3 Mapping, 4 Filter (checked), 5 Validation, and 6 Information (checked). The main area of the window contains two radio buttons: "Last Used File" (unselected) and "New File" (selected). Below the radio buttons is a text input field labeled "Filename:" with the placeholder "[none]" and a "SELECT..." button to its right. At the bottom of the window are "BACK" and "NEXT" buttons.

2. Click **Select** to browse for the file you want to import,
3. Select the file then click **Open**, the name of the file you selected appears in its field, click **Next**, the following window appears:

You can click **Back** to return to the previous window.
