# Assign image to article

To assign an image to its article, follow these steps:

1. Select "Assign Image" from the Actions menu next to the image you want, the following window appears:

2. Click the article Id field and select the article number you want,
3. Click the Image Type field and select the type you want, the **Save** button is activated,
4. Enter the sort order, if you want,
5. Click **Save**, the image is assigned to the selected article and removed from the list of unmatched images.
