

Manage folders

In the Merchandising Boards module, a folder is a container of slides on which different objects can be placed. These folders help you organize your slides and the information you want to export as a Power Point presentation. Subfolders are also supported.

By default, the board contains one folder that contains one slide only as shown below:

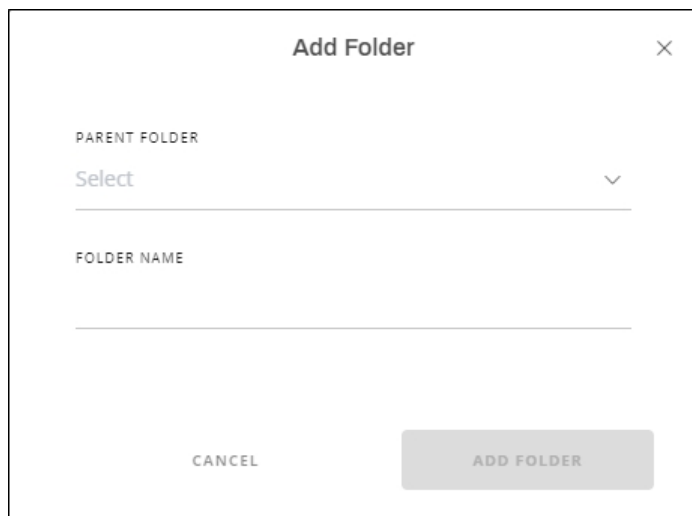

You can add more folders and slides, rename or delete any of them. You can also drag and drop folders to change their positions.

Add folder

To add a new folder to the board, follow these steps:

1. Click , the following window appears:
